IS SIKVIVO EVEN *FOR YOU?*

A four-phase system designed for different starting points, from your first online sale to breaking through an existing e-commerce ceiling.

Who This Is *For*

01

Aspiring Founder

Little or no online income. You want a real second income alongside your job but need a credible model and clear starting point.

NEEDS BELIEF + A CLEAR PATH

02

Online Business Owner

You have tried or made money online before or are currently doing it, but the results never became stable, repeatable, or brand-led.

NEEDS A STRONGER SYSTEM

03

E-commerce Operator

You already understand the Ecom game but need the missing leverage, systems, diagnosis, or infrastructure to scale further.

NEEDS LEVERAGE + SCALE

The *4-Phase Strategy*

01

Validate on eBay

Use marketplace demand to generate early sales, feedback, and proof.

02

Build on Shopify

Turn validation into a credible brand, offer, and owned customer journey.

03

Grow on Instagram

Build trust, attention, community, and an organic acquisition channel.

04

Scale With Meta Ads

Use paid acquisition to amplify foundations that already make sense.

Why the *Sequence Matters*

VALIDATE

Prove demand before committing heavily.

>

BUILD

Create the brand after the market responds.

>

CREATE DEMAND

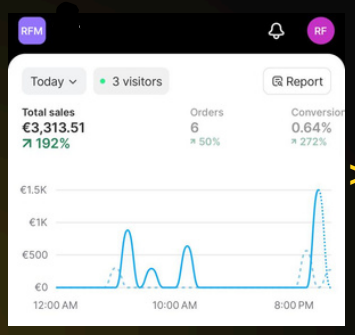

Develop trust and owned attention.

>

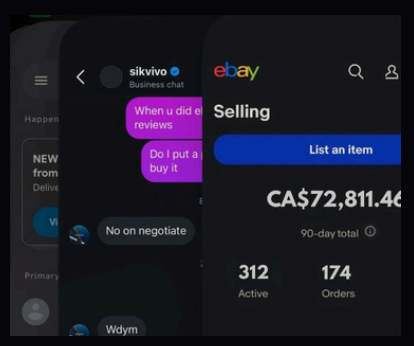

SCALE

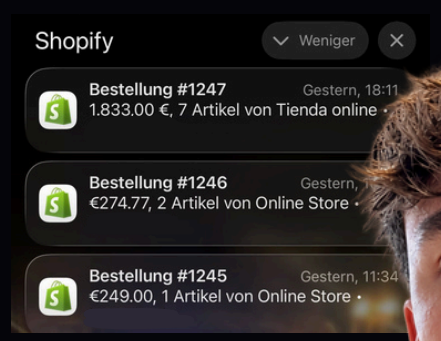

Put more capital behind what is proven.

Real People. *Real Progress.*

WANT TO SEE IF THE SYSTEM FITS YOUR SITUATION?
